Python

MY PROFILE

Generalist **Full Stack Developer** currently specializing in Angular, applying **SOLID principles**, **clean architecture**, and **unit testing** in my work. Fast learner and self-taught, I can adapt to new workflows and frameworks

WORK EXPERIENCE

Front end Developer

Seat | Martorell

2023 - Currently

- Implementation of optimized Angular-based front-end **solutions for resource-limited devices**.
- UI layout design for Seat brand embedded car systems using **Angular**.
- Close **collaboration with design and development teams** to ensure a coherent and effective user experience.
- Angular codebase maintenance and updates for **scalability and performance**.

Front end Developer

Tecsolda | Esparreguera

2022 - 2023

- Development of time-tracking application using **Angular** on the **front-end** and **Node.js** on the **back-end**.
- Collaborating on the implementation of best practices for software development, including code reviews and **testing**
- Migration and maintenance of A3 business management software to Ekon ERP (with **SQL** for data export and **Python** for data cleansing).

Help Desk

Seat | Martorell

2018 - 2020

- Assistance and support to internal workers
- Stock management
- Preparation, reception and configuration of devices for SEAT personnel.

TRAINING

< **Bootcamp Full Stack - KeepCoding** />

2022 - Currently

< **Adv. Degree - Web Applications Development(DAW)** />

2020 - 2022

< **Med. Degree - Microcomputer Systems and Networks (SMX)** />

2015 - 2017
